

# Dental Home Care

## RECOMMENDATIONS

### **Brushing**

- ✿ For best results, teeth must be brushed once daily.
- ✿ Use toothpaste designed for pets only.
- ✿ Start at an early age and reward them throughout the process.

Products recommended:

- C.E.T Enzymatic Toothpaste (dogs and cats)
- Soft Bristle Brush

### **Chews**

- ✿ For best results, give one chew daily.
- ✿ Great option when brushing is not possible.
- ✿ For effectiveness pet should have 2-4 minutes chew time.

Products recommended:

- Oravet (dog)
- C.E.T VeggieDent Chews available in Fresh, Flex, or Zen (dog)
- C.E.T Oral Hygiene Chews (cat)

### **Diet**

- ✿ Reduces plaque, stain, and tartar buildup by cleaning the tooth surface and fighting bacteria-laden plaque.
- ✿ Unique kibble shape and size to promote chewing.
- ✿ Available for cats and dogs.

Products recommended:

- Hills Science Diet T/D
- Royal Canin Dental Diet

### **Gel**

- ✿ Use daily for best results. Can be used in conjunction with other home care methods.
- ✿ Cleans teeth and freshens breath with or without brushing.
- ✿ Product can be applied directly into mouth and the pet's natural cleaning action will distribute the gel throughout the mouth.

Product recommended:

- Maxi/Guard Oral Cleansing Gel (dogs and cats)

### **Water Additive or Rinse**

- ✿ Helps reduce accumulation of biofilm on teeth that leads to plaque and also freshens bad breath.
- ✿ As a water additive, add to water and change out daily. Make sure to provide a bowl of fresh water without the additive also.
- ✿ As a rinse, apply directly to teeth and gums once daily.
- ✿ For best results, use with another home care product.

Product recommended:

- PAH Dental Water Additive (dogs and cats)
