

Dog Toy Recommendations

RECOMMENDED DOG TOYS

-  **KONG toys:** They are usually rubberized and allow you to put treats inside them for an even more exciting play time. *(They come in different size and life stages for the pet)*
-  **Smooth Surfaced Balls:** Always be sure to get one that is big enough they cannot swallow it.
-  **Plush Toys Without Strings:** These may get destroyed - monitor interaction to make sure no pieces are eaten.
-  **Starmark Everlasting Treat Ball:** An interactive treat ball that helps clean the teeth while being chewed on.
Dishwasher safe and made for pets that love to chew.
-  **Earth Animal No Hide Chews:** A nice alternative to the antlers and hooves and are an easily digestible chew.

DOG TOYS TO AVOID

-  **Tennis Balls:** These are really abrasive and act like sand paper on your dogs teeth.
-  **Bones and Sticks:** Nylabones, deer antlers, cow hooves, and pig ears are bad for your pet because they are harder than their teeth. Chewing on these could cause damage to teeth and/or gums and the bones can splinter causing internal damage when ingested.
-  **Ice Cubes:** They can make the teeth brittle and more susceptible to fracturing.
-  **Frayed Rope:** Ropes can be just as abrasive as a tennis ball and if swallowed can get lodged in the intestines.
